R RAIFFEISEN AI INVESTMENT COACH · PRODUCT OVERVIEW

Turn idle cash into a first investment.

A friendly AI chat that convinces visitors to join Raiffeisen — then helps them start investing, right inside their account.

01 **Social ad** → 02 **Chat in the browser** → 03 **Open or log in** → 04 **Invest inside the app**

Money in a current account quietly shrinks

Why people don't invest

- ✓ “I'm afraid of losing my money.”
- ✓ “I want to be able to take it out anytime.”
- ✓ “I don't understand how the stock market works.”

The coach answers exactly these three worries — in plain words, in under 2 minutes.

A 2-minute chat that makes the case

How much could you set aside each month?

500 lei a month

What worries you most about investing?

Fear of losing my money

Fair. I'll keep it balanced. **Over 5 years, 500 lei/month could grow to 35,771 lei.**

What if the market drops?

Left as cash

26,379 lei

real value of 30,000 lei saved

Diversified fund (~7.2%/yr)

35,771 lei

same 30,000 lei, invested

After 5 years: **+9,392 lei** better off than keeping cash.

A slider lets the visitor try anything from 100 to 2,000 lei/month.

One-tap answers, no jargon

- **What if the market drops?**
- **Can I withdraw anytime?**
- **What fees will I pay?**
- **How does a fund work?**

Simulation only · past returns don't guarantee future results

One button, two doors

07 WHY IT WORKS

Simple for customers, measurable for us

For the customer

- ✓ Sees their own numbers, not a brochure
- ✓ Gets worries answered in plain words
- ✓ Starts with as little as 100 lei/month

For Raiffeisen

- ✓ New customers straight from social ads
- ✓ Existing clients nudged into investing
- ✓ One conversation from ad to active plan

What we measure

- Ad click → chat started
- 3 questions answered
- Account opened / logged in
- Plan activated
- First debit executed

Under the hood, kept simple: the AI talks and explains; the bank's own systems do the numbers, identity checks and money movement.
